Care to Care Expands Service to New Jersey

NEW YORK, N.Y., Jul 21 2009 — Care to Care, LLC, a Radiology Benefit Management (RBM) company, has been certified by New Jersey's Department of Banking and Insurance as an Organized Delivery System (ODS). This approval permits Care to Care to perform network management and utilization management for carriers operating in New Jersey. Care to Care currently provides radiology benefit management services to more than 800,000 lives and is looking forward to expanding into New Jersey. Care to Care was founded in 2007 at the request of health plans and providers. Care to Care's philosophy is to provide flexible solutions to payors, and treats providers with dignity and care.

About Care to Care LLC

Care to Care was founded at the request of health plans and radiology facilities that saw a need for Radiology Benefit Management that focused on patient outcomes as well as manage cost and utilization management. Care to Care believes appropriate radiological and diagnostic imaging services improve member outcomes. A panel of Board Certified Radiologists developed our clinical guidelines and conduct peer to peer reviews in an effort to minimize or prevent waste in the care of acute and chronic illnesses.
